

Thank you for purchasing the *You Can Paint* tutorial. We sincerely hope you will enjoy the contents of the CD and DVD.

Please read and follow this guide, in the order shown, to enhance your enjoyment and the learning experience.

**Step No. 1:** Place the Computer disc (CD) in your computer.

With your mouse, either drag the "[YouCanPaint.011](#)" to your web browser, or right click and open with the web browser of your choice.

**Step No. 2:** You now have your choice of languages:

**English: YOU CAN PAINT**

**Step No. 3:** On the next screen, you now have the enjoyment of choosing your favorite background color in the choices offered.

**Step No. 4:** The next screen gives you a menu of all of the sections of You Can Paint. Familiarize yourself with this disc by browsing through the different sections and you will find information on references, supplies, surfaces, brushes, paints, books, plus easy step-by-step instructions on drawing and painting eight different garden flowers.

Once you feel you are familiar with the computer disc, go to:

**Step No. 5:** Place the DVD in your television (or DVD player).

When "Copyright" appears, click to agree.

The next screen gives you choices of "About the Author", "Materials List", "The Projects" and "General Instructions".

Navigate through any of these and, when you wish, you can return to the "Main Menu" to move to another part of You Can Paint.

**Step No. 6:** After viewing and becoming familiar with the begin.html file and you have viewed the DVD and have learned about base-coating, shading, highlighting and brush strokes for the flowers, refer back to the YouCanPaint.pdf file on the CD and create the different projects listed in the index.

### Resolving Problems:

Make sure you have the discs in to the proper place: The CD Computer Disc should go in your computer, and the DVD in your DVD player, either built in to your TV, or free-standing DVD player.
